Re: Issuance of Title V Operating Permit for Tri-Cities Landfill Energy Facility

Dear Mr. Bottolfson:

In accordance with the provisions of the Clean Air Act, as amended (42 U.S.C. 7401 et seq.), the Environmental Protection Agency has reviewed Salt River Project's ("SRP") application for a title V permit to operate for the Tri-Cities Landfill Energy Facility, .

A request for public comment regarding EPA's proposed title V permit renewal was published on September 7, 2006 in *The Arizona Republic* and the *Au-Authm Action News*. SRP submitted comments regarding the proposed permit on October 4, 2006. No other comments were received. We have enclosed a copy of EPA's response to these comments.

After consideration of the expressed view of all interested persons, and all pertinent federal statutes and regulations, EPA hereby issues a title V permit to operate for Tri-Cities Landfill Energy Facility.

Any person may petition the Environmental Appeals Board to review the Environmental Protection Agency permit decision. Such a petition shall include a statement of the reasons supporting the request for review, including a demonstration that any issues being raised were raised during the public comment period to the extent required by 40 CFR §71.11 and, when appropriate, a showing that the condition in question is based on:

- (1) A finding of fact or conclusion of law which is clearly erroneous;
- (2) An exercise of discretion or an important policy consideration which the Environmental Appeals Board should, in its discretion, review.

An appeal to the Environmental Appeals Board for review of this permit decision must be filed not later than December 30, 2006 with the Hearing Clerk at the following address:

U.S. Environmental Protection Agency
Clerk of the Board, Environmental Appeals Board (MC 1103B)
Ariel Rios Building
1200 Pennsylvania Avenue, N.W.
Washington, DC 204606-0001

This permit shall become effective on December 30, 2006 unless a petition is filed to review any conditions of this permit as described above (in which case the specific terms and conditions of the permit which are the subject of the request for review will be stayed). This permit is valid for a period of five years and shall expire at midnight on the date five years after its date of issuance unless a timely and complete renewal application has been submitted at least six months, but not more than 18 months, prior to the date of expiration of the permit.

If you have any questions regarding this matter, please contact Manny Aquitania of the Air Division Permits Office at (415) 972-3977 or aquitania.manny@epa.gov.

Sincerely,
